

MIRROR SIGN RE. PRODUCTS USED

You can print these off, cut them up and laminate them to stick to the mirrors if you feel the need to prompt your clients to tell the truth about what they are using on their hair.

You should be finding this out during the consultation but as we know some clients don't always tell us the truth.

I, myself, go through phases as to if I have these up or not.

Existing clients tend to understand so you don't have issues. If you find you are having lots of new clients coming in then it may be worthwhile putting them back up.

It's not a necessity to have them there but now you have a template if you do need them.

Dear Valued Client, it is important for us to mention that if you do not use professional (Salon Quality) styling products please advise your stylist, as this may affect the end result of your treatment/s. We cannot guarantee colour results if you do not use the hair care products we recommend.
